### Superintendent's Highlights

The impact of the all day kindergarten implemented in the 2000-01 school year are being observed through improved IRI reading scores.

The weekly teacher collaboration time proved k-12 teachers is resulting in a more unified effort to close the gaps in student learning. Staff in-service is being provided through the weekly collaboration time to support student learning and staff teaching needs.

The heating and cooling system renovation completed in the 2001-02 school year has been debugged and is now functional. The learning environment has been enhanced due to the improved level of comfort for students and staff. The School Board and community successfully completed the search for a new superintendent.

The district focused on improving math, reading, and language arts achievement with the intent to improve student proficiency levels and meet AYP requirements for NCLB.

### Progress Towards Meeting District Goals

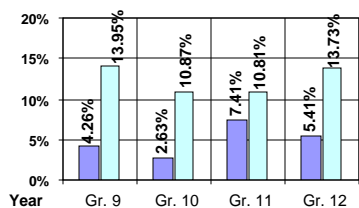

2002-03 Goals	Progress
Revise and update Kamiah's strategic plan.	The strategic plan was revised, updated, and published by a broad-based committee of stakeholders.
To raise student achievement to state and national averages on all state mandated testing.	IRI scores improved dramatically, and are above state averages, with the implementation of all day, every day kindergarten and other research-based academic programs for all students. DMA and DWA scores are at state levels or higher and great improvements were evidenced in the ITBS and TAP tests.
Continue to develop and align district curriculum to state and national standards.	Kamiah now has language arts, science, and social studies developed and aligned.

Additional grade levels will be assessed in each of the next two years in order to be in complete compliance by 2005.

### Direct Writing Assessment

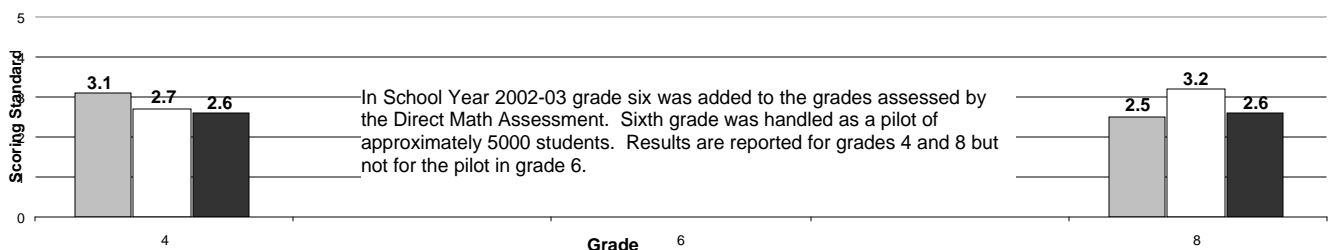

■ 2000-01 □ 2001-02

For School Year 2002-03 the grades to be assessed by the Direct Writing Assessment were changed by the State Board of Education from 4, 8, and 11, to grades 5, 7, and 9. During the 2002-03 school year, the DWA was piloted to a sample of 5,000 students each of two grades, 5 and 9. Consequently, no results will be posted for those grades.
